NOTICE TO STATE WATER PROJECT CONTRACTORS

NUMBER:

09-04

DATE:

MAR 18 2009

SUBJECT:

2009 State Water Project

Allocation Increase

FROM!

Deputy Director, Department of Water Resources

The Department of Water Resources (DWR) is increasing the allocation of 2009 State Water Project (SWP) water for long-term contractors from 624,620 acre-feet to 833,275 acre-feet. Based on recent water precipitation and current water supply conditions, SWP supplies are projected to meet 20 percent of most SWP Contractors' 2009 requested Table A amounts, which total 4,166,376 acre-feet. Attached is the revised 2009 SWP allocation table.

DWR's new approval considered several factors, including existing storage in SWP conservation reservoirs, SWP operational constraints, including the conditions of the recent Biological Opinion for Delta smelt, and 2009 contactor demands. DWR may revise allocations if warranted by the year's developing hydrologic and water conditions.

If you have any questions or need additional information, please contact Robert Cooke, Chief of DWR's State Water Project Analysis Office, at (916) 653-4313.
